HASLERRail

HaslerRail supports you immediately with

EVA+ Smart Access

Analyze your train data from anywhere while your office with EVA2 and EVA+Desktop stations is not accessible. We are enabling remote data access with EVA+ Smart Access while taking advantage of our well established vehicle data analytics solution.

Extraordinary situations require extraordinary solutions.

WHAT WILL YOU GET?

– Instance on our HaslerRail Cloud on AWS
   Premises: **yourcompany.evaplus.com**
– **1 hour webinar**, with one of our specialists
– **Unrestricted concurrent users / vehicles**

HOW MUCH DOES IT COST?

EVA+ Smart Access is free of charge until 30 May 2020.

WHO CAN BENEFIT FROM THIS OFFER?

Rail operators and train manufacturer who operate with our TELOC® data recorders and are existing users of our desktop evaluation software EVA+ Desktop or EVA2.

WHICH TELOC® VERSIONS ARE SUPPORTED?

EVA+ Smart Access processes data from TELOC® 4000, 3000, 1500, and 2500.

WHAT ARE THE STEPS TO GET YOUR COMPANY ON-BOARDED?

1. Get back to us via your HaslerRail sales representative.
2. Fill a form with required information such as users, TELOC® and vehicle ID's which will be sent to you.
3. We will immediately create your company instance and user accounts according your inputs.
4. You get an one hour training via webinar by our specialist

HOW DOES IT WORK?

1. Once the on-boarding is complete, your train drivers or maintenance personal should download TELOC® data on a regular basis, via USB, and upload directly into EVA+ Smart Access in the web browser.
2. Start analysing your train data remotely via web browser from anywhere.
